

## High Performance Program - Special Consideration Form

Hockey PEI's High Performance Manual specifies two situations in which a player can apply for special consideration for participation in the next step of the process. These situations are:

1. **Injury / Illness** - a player is physically unable to participate in a particular step in the program due to either an injury or illness. Players are deemed to have qualified for this criteria when they provide a **written medical excuse signed by a doctor**
2. **Compassion** - this includes any and all special situations that may arise where compassion is necessary. The responsibility of determining whether or not a player qualifies for compassionate consideration rests with the Hockey PEI Technical Director. Examples of compassion are: death in the family, serious illness / accident in the family, unable to attend due to being away at school or attending an elite sporting event.

### APPLICATION

I am applying for special consideration to the next step of the High Performance Program due to:

- ( ) Medical reasons  
( ) Compassionate reasons

Level/Age group applying for:
