Re: Provincial Championship Tiering

We have received inquiries about Male "A" hockey and the process for Tiering of leagues at the Christmas break.

Please find enclosed on the next page the layout of the "A" Male leagues as it pertains to Tiering. We ask that you distribute this to the applicable teams.

UPDATED – November 28, 2013

A question has arisen from several people about the league structures after the break at Christmas. This was outlined at the Fall Presidents Workshop and at the "A" League Meetings in October.

For the second half of the season, teams will not cross over to the other division. As an example, Bantam A East (Tier 1), will only play teams in the East in the Tier 1 category. They do not cross over to the West division for league play. The number of games played will be determined based on the number of teams in each division.

This is based on the Pilot Project that was used in 2012-13 season with the Pee Wee "A" league.

Regards,

Mike Hammill
